KODI SAITEJA

Python Developer | Flask Developer | Software Engineering Intern
+91 75693 24738 | saitejakodi3@gmail.com | linkedin.com/in/kodi-saiteja | github.com/saitej3210

SUMMARY

B.Tech Electrical & Electronics Engineering student (expected 2027) with hands-on Python development experience, having built and deployed four web applications using Flask and Django. Experienced in backend development, API integration, and cloud deployment. Seeking a Software Engineering or Python Developer internship to build reliable software.

EDUCATION

B.Tech — Electrical & Electronics Engineering 2023 – 2027 (Expected)
Sri Indu College of Engineering & Technology, Ibrahimpatnam
CGPA: 8.2/10

TECHNICAL SKILLS

Languages: Python, SQL
Tools: Git, GitHub, Render (Cloud Deployment)

PROJECTS

Proctored Online Examination System Python · Flask

- Engineered a secure web-based examination platform in Flask with live proctoring to maintain academic integrity.
- Implemented an exam timer, auto-submit, and pause/resume controls for a reliable student experience.
- Built anti-cheating safeguards including tab-switch detection, window-blur alerts, and copy/paste violation tracking.
- Developed an admin analytics dashboard to monitor student violations and performance.
- **Live:** https://proctored-exam-system-9ndc.onrender.com/ | **Code:** https://github.com/saitej3210/proctored-exam-system

SpeakDeck AI Python · AI · Web Application

- Developed a full-stack AI-powered presentation platform that lets users create, edit, present, and interact with presentations using AI and voice-based commands.
- Implemented manual slide creation and editing, presentation upload, and AI-assisted presentation generation through backend API integration.
- Built voice-driven, real-time presentation interaction with object- and slide-level control for a presenter-focused experience.
- Deployed the application to the cloud on Render with source control and version history managed on GitHub.
- **Live:** https://speakdeck-ai-frontend.onrender.com

Pochampally Ikkat Sarees — E-Commerce Platform Django · HTML · CSS

- Designed and developed a Django e-commerce website showcasing traditional handloom sarees with product listings and pricing.
- Deployed to Render, covering the full development cycle from local build to production.
- **Live:** https://pochampally-ikkat-sarees.onrender.com | **Code:** https://github.com/saitej3210/pochampally-ikkat-sarees

LeadDesk Mini CRM Python · Flask · SQLite · HTML · CSS · Bootstrap

- Developed a full-stack lead management CRM web application using Flask and SQLite.
- Built a responsive landing page with a lead capture form using client-side and server-side validation.
- Implemented an admin dashboard to search leads, update status (New, Contacted, Closed), and delete records.
- Deployed on Render and managed version control with Git and GitHub.
- **Live:** https://leaddesk-mini-crm-vuy0.onrender.com | **Code:** https://github.com/saitej3210/LeadDesk-Mini-CRM

CERTIFICATIONS & ACHIEVEMENTS

- AI & Machine Learning Workshop — Certificate of Completion
- Embedded Systems Learning Workshop — Hands-on practical training
- Industrial Training in Electrical Maintenance — Real-world engineering exposure
